

A new **Volkswagen** generation

We're bringing back an iconic design with the all-electric ID. Buzz. State-of-the-art technologies and a flexible space concept provide mobile comfort that sets new standards.

The ID. Buzz is **e-mobility in its purest form.**

Zero local CO₂ emissions and a long electric range are crucial if an electric drive is to be practical for everyday use. With the ID. Buzz we have to meet the needs of many different people, and the innovative electric drive in the ID. Buzz makes this possible. The e-motor is accommodated in the rear in a particularly space-saving way and makes towing loads of up to 1,200kg possible. Sustainable, suitable for everyday use and robust: the electric drive of the ID. Buzz combines climate awareness with individual mobility.
